SUPPLEMENTAL RECORD #160 — PSALM 90 / 80-YEAR / FEAST OF NEW OIL TIMELINE AUDIT (MR. BONES SUMMARY — AUGUST 11, 2026) [WITH TIMESTAMP THEOLOGY ADDENDUM]

Stamp: 422 | Date: August 11, 2026 | Status: TIER-2 SUPPLEMENTAL — ARCHIVAL SEAL & TIMESTAMP THEOLOGY ADDENDUM — THREAD HEALTH 10/10

Section I: Executive Summary

This supplemental record logs the theological and chronological framework presented in the Mr. Bones August 2026 briefing, captured in parallel with the V246 dual-ceiling seismic and volcanic telemetry. The framework centers on the 80-year biblical lifespan under Psalm 90:10, Israel's generational anchor (1948–2026/2028), the Joseph 2+5 famine pattern, the reinterpretation of the Feast of Trumpets as the Feast of New Oil, and the precise archival timestamp alignment of **11:42 AM EDT** on August 11, 2026.

Section II: Hardware (The Evidence — Scriptural Patterns)

- **Vector 1 — The 80-Year Generation (Psalm 90:10):**
  - Scriptural baseline: Psalm 90:10 ("The days of our years are threescore and ten...").
  - Chronological marker: Israel (established May 14, 1948) is currently in Hebrew year 5786 (turning 5787 at Trumpets), placing the 80-year threshold at May 14, 2028 to May 13, 2029.
  - Biblical 80-year precedents: Moses' age at the exodus mission (Exodus 7:7); Joseph's duration as second-in-command; Boaz at marriage to Ruth; United Kingdom peak under David and Solomon; Levitical female purification cycle.
- **Vector 2 — The Joseph 2+5 Pattern (Genesis 45:6):**
  - Textual reference: Genesis 45:6 ("For these two years hath the famine been in the land: and yet there are five years left").
  - Application: Interpreted as a structural template rather than a symmetrical 3.5 + 3.5 mid-trib split, aligning with Israel's timeline (+2 years to the 80-year window, followed by a remaining 5-year tribulation horizon).
- **Vector 3 — The 6,000-Year Framework:**
  - Chronology: 4,000 years from Adam to the Cross. Note: The calculation of the 80th Jubilee ($50 \times 80 = 4000$) represents the presenter's chronological

assumption and interpretive framework rather than universal scholarly consensus on the exact Cross year. This is followed by a 2,000-year Church Age, pointing toward a 6,000-year human history marker near 2032, offset by a 7-year tribulation commencement window in 2025/2026.

Section III: Software (The Word / Numerical & Calendar Projections)

- **Vector 1 — Revelation 12 & Celestial Cycles:**
  - Jupiter (King Planet) cycle: 12-year orbit returning to Virgo's womb during the 2028–2029 window, mirroring the September 23, 2017 alignment.
  - Tetrad correlation: 2014–2015 blood moon tetrad pattern mapped against ongoing calendar observations.
- **Vector 2 — Feast of New Oil Nomenclature:**
  - Reinterpretation of Yom Teruah (Feast of Trumpets) through agricultural and ceremonial titles (*Yom HaTruah*, *HaMelech*, *HaDin*, *HaZikaron*, *HaKeseh*, *Chevlai shel Mashiach*).
- **Vector 3 — Primary High-Watch Dates & Season Recognition:**
  - **September 12, 2026:** Primary high-watch date aligning with Feast of Trumpets / Feast of New Oil / Blowing and Shouting. *Note: Recognized as seasonal watch recognition, not rigid date-setting.*
  - **April 2027 (Nissan):** Secondary structural boundary at the conclusion of Hebrew year 5787.
  - **May 2028 – May 2029:** Israel's 80th-year terminal window.

Section IV: Timestamp Theology Addendum (11:42 AM Alignment)

The archival upload timestamp of **11:42 AM EDT** (August 11, 2026) integrates foundational textual and numerical signatures corresponding to the dual-ceiling breach window:

- **The 11th Hour (Matthew 20:6–9):** Final vineyard workers receiving equal reward, emphasizing grace over works and blood-only redemption.
- **The 42 Stops / Months (Numbers 33, Revelation 11:2):** Mirroring Israel's 42 wilderness encampments from Egypt to the Promised Land and the 42-month tribulation clock.
- **Strong's H1142 (Benaiah):** "Yah builds" — the mighty man who slew a lion in a pit in time of snow, corresponding to the construction of the archive record.
- **Strong's G1142 (Daimon):** The classical root for guiding spirit or divine messenger, aligning with watchman positioning under adversarial scrutiny (Matthew 10:25).
- **Minute Calculation (702^{nd} Minute) & Strong's H702 (Arba):** Representing the four corners of the earth and the four holding winds (Revelation 7), matching the dual seismic/volcanic breach day.

- **Luke 11:42:** The structural warning against tithing mint while passing over judgment and the love of God (the empty oil horn versus the Feast of New Oil).
- **UTC Conversion ($15:42\text{ UTC}$ / $3:42\text{ PM}$):** Aligning with the ninth hour ("It is finished"), marking the completion of Supplemental Record #160.

Section V: The Verdict

Supplemental Record #160 establishes an interpretive Tier-2 baseline linking generational demographics (Psalm 90:10 Israel 80-year window) with annual feast-cycle watches (September 12, 2026 Trumpets/New Oil) and precise timestamp alignment. While distinct from Tier-1 physical sensor telemetry (USGS seismic and VAAC volcanic data logged in V246), this framework provides structural context for the Autumn Pipeline Phase C watch.

High-Value Next Step

Cross-reference Supplemental Record #160 and its Timestamp Theology Addendum with the Autumn Pipeline schedule (Phase C Mid-September watch) while maintaining strict operational separation from primary Tier-1 seismic/volcanic sensor logs, pointing directly back to V246 dual-ceiling telemetry for archive continuity.
